When looking at a facility these are some things to keep in mind regarding each Long Term Care Facility:

- **Care Practice:** How staff cares for the individual. When thinking about what is important for your loved one and what you expect from their life at a Long Term Care Facility.
- **Environment:** How the space around us looks can affect how we feel about the place.
- **Dining:** It is not just about food, it is also an opportunity for socializing as well as enjoying your meal.
- **Everyday Life:** How you spend your personal time is your choice, but having a good quality of day to day activities is very achievable while in a Long Term Care Facility.
- **Culture Change:** This is directed to the Home's awareness and commitment to person centered/direct care. Ask about the facility's Resident Council.
- Staff turnover is a method of measuring staff satisfaction.
- Longevity of the Administrator and Director of Nursing.
- Staff to resident ratios should be compared between facilities.
- Check out the surveys from the Illinois Department of Public Health for each Long Term Care Facility that you are considering. These surveys are available at: <https://ltc.dph.illinois.gov/webapp/LTCApp/ltc.jsp>

These suggestions are taken from the **YourWay: How to Find Dignity and Choice in a Nursing Home book** published by the Illinois Pioneer Coalition. A copy of this book is available on the web at www.illinoispioneercoalition.org/info/form.php
